Every Patient – Every Day

SentactRounding – How It Works

Optimize the Process

With Sentact**Rounding**, hospitals can easily develop content and keep it current, perform rounds more efficiently, resolve issues, and measure results.

Automate Issue Resolution

Our powerful workflow logic helps hospitals swiftly resolve issues and assign tasks to the right employee, tracking the progress in real-time.

Capture Issues On-Demand

With just a few clicks, caregivers have access to a single point of contact for all safety, support services, and service recovery needs and issues outside of rounds.

BENEFITS

- Optimize resources
- Drive adoption
- Enable continuous improvement
- Close the loop
- Reduce labor cost
- Comprehensive identification of issues
- Seamless user experience
